

WHERE ?

He set off at England and he stopped on the way around the world like he stopped at Spain on a coast of Barcelona and at China and at Canada then back to England

WHO ?

Sir Francis Drake

WHEN ?

Late in 1577, Francis Drake left England with five ships, ostensibly on a trading expedition to the Nile.

WHY ?

The Queen wanted to now if the earth was round so she sent Sir Frances Drake.

FACT

In the old days people use to think that the earth was square.

FACT

I think that Francis Drake is important because if he hadn't sailed around the world we would have been scared of what is out there.

WHAT ?

He was the first person to sail around the earth.
